

## Data Projection System

# McIntyre 324

Computer is attached to the Data Projection System.

Projector Remote Control is mounted on the podium.

### **TURNING ON PROJECTOR: Press ON button once.**

The bulb takes a minute to warm up before responding. If you're unsure whether projector is on, look up at the projector lens to see if the light is on.

### **DELL COMPUTER:**

- Turn on computer
- If there is no image, press the **INPUT** button on the remote until INPUT 1 is displayed on the screen.
- Computer display resolution must be 800 x 600 pixels.
- Adjust computer sound volume using controls on the upper right-hand of the remote. You may mute the sound using the **MUTE** button at the top center of the remote.

### **TURNING OFF PROJECTOR: Press OFF button TWICE on the remote.**

The first time asks if you are sure you want to turn it off.

You may blank the screen temporarily by pressing the **BLACK SCREEN** button on remote. Be sure to turn the picture back on by pressing the button again.

#### *Getting Additional Help*

For immediate help, call the OIS Helpdesk x8585.

For problems with tables, chairs, chalk, heating, lighting, etc., contact Facilities Services x3231.
